Course Brochure

September 2015 – May 2016

"Enhancing our Caring by On Going Training"

Introduction

The Education Centre is an embodiment of the St. Luke's Home Vision of continuing to provide high quality care to the Older Person in the city and beyond.

The maxim of "Enhancing our Caring by On Going Training" is emblematic of this commitment. Courses are geared towards the needs of those who provide Care for the Older Person – be it within a Residential Care Centre, Hospital or Home Setting. Our training is provided by experienced and qualified facilitators.

Many of our courses offered are accredited by either **QQI or An Bord Altranais**.

In addition to providing training to meet the standards expected by HIQA and the other statutory bodies the Education Centre continues to enhance the breath of training it can provide e.g. the provision of Clinical Pastoral Education and other courses in pastoral ministry.

The Centre offers a variety of Educational and Meeting settings and is available for bookings.

The Centre also provides tailor made courses that can be provided off-site in other Residential Care Centres.

Please contact Claire or Bruce to discuss your training needs.

To be added to our mailing list and receive our regular newsletters and updates please contact us at the below. Full details of course content, application process and pre-requisite requirements can be downloaded from our website www.stlukeshome.ie/education-centre or can be sent by post on request.

NEW Innovative Approaches to Dementia Care

5 Day Programme for RNs (ABA Category Pending)

14th, 28th October, 11th, 25th November & 9th December (5 Full Days)

This new course offers Registered Nurses (RNs) working in older adult care settings the opportunity to develop and expand their knowledge, skills and attitudes in providing sophisticated dementia care across a range of settings. The course will enable RNs to take a critically self-reflective approach to identify what evidence-based practice achieves. The course is designed to run over 5 full days in a 10-week period and will include both national and international best practice innovations. The aim of this innovative course is to enable RNs to develop cultures of person-centeredness and improve the quality of life and quality of care for people with dementia.

The course is centred around 5 Themes:

- Theme 1** Memory loss and Dementia typology and implications
- Theme 2** Climate for sophisticated dementia care: innovation and action
- Theme 3** Therapeutic interventions: past, present and future directions
- Theme 4** Supporting the person with responsive behaviour
- Theme 5** Confidence & competence for innovative practice

The approach taken on this course will be that of work-based learning where the learner will be required to undertake specific activities between each formal education day in order to demonstrate professional learning and improve reflective skills.

- Week 1-2** Evaluate own work place culture
- Week 2-4** How is person centeredness revealed
- Week 4-6** Leading an innovation (therapeutic intervention)
- Week 6-8** Using an ABC approach recording and resolving
- Week 8-10** Managing change and increasing benefit
